Roche Continents 2019 from August 22nd to 26th, 2019, in Salzburg, Austria

Roche Continents is a project grown from Roche’s partnership with the Salzburg Festival, where the company sponsors Salzburg contemporary, a series of concerts featuring the works of contemporary composers.
Roche Continents is aimed at arts and science students from European institutions. It enables them to experience contemporary music at the Salzburg Festival and to discover the common ground of creativity in the arts and science through discussion among themselves and with key personalities in both fields.
